Contents

No. 1 (February 1998) PAGE

Partitioning of milk accumulation between cisternal and alveolar compartments of the bovine udder: relationship to production loss during once daily milking S. R. Davis, V. C. Farr, P. J. A. Copeman, V. R. Carruthers, C. H. Knight and K. Stelwagen 1

Effect of forage conservation (hay or silage) and cow breed on the coagulation properties of milks and on the characteristics of ripened cheeses I. Verdier-Metz, J.-B. Coulon, P. Pradel, C. Viallon and J.-L. Berdagué 9

Effect of altering the daily herbage allowance to cows in mid lactation on the composition, ripening and functionality of low-moisture, part-skim Mozzarella cheese T. P. Guinee, E. O. Mulholland, C. Mullins, M. O. Corcoran, J. F. Connolly, T. Beresford, R. Mehra, B. J. O'Brien, J. J. Murphy, G. Stakelum and D. Harrington . . 23

Subclinical mastitis assessed by deviations in milk yield and electrical resistance E. Shoshani and A. Berman 31

Localization of carbonic anhydrase in the goat mammary gland during involution and lactogenesis K. Cvek, K. Dahlborn and Y. Ridderstråle 43

Citrate, calcium, phosphate and magnesium in sows' milk at initiation of lactation J. C. Kent, P. G. Arthur and P. E. Hartmann . . . 55

Distribution of minerals and proteins between the soluble and colloidal phases of pressurized milks from different species R. López-Fandiño, M. A. De La Fuente, M. Ramos and A. Olano 69

Electrophoretic characterization of the protein products formed during heat treatment of whey protein concentrate solutions P. Havea, H. Singh, L. K. Creamer and O. H. Campanella 79

Growth factors in milk: interrelationships with somatic cell count A. Liebe and D. Schams 93

Changes in the concentrations of free amino acids in milk during growth of *Lactococcus lactis* indicate biphasic nitrogen metabolism G. W. Niven, D. J. Knight and F. Mulholland 101

Proteolytic activity of lactococcal strains from water-buffalo Mozzarella starter cultures G. Mauriello, G. Moschetti, G. Blaiotta, F. Villani and S. Coppola 109

Free active peptidases are detected in Emmental juice extracted before ripening in the warm room V. Gagnaire, S. Lortal and J. Leonil . 119

Antitumour activity of yogurt: study of possible immune mechanisms G. Perdigón, J. C. Valdez and M. Rachid 129

Short communications

Isolation of coagulase-negative staphylococci from the milk and environment of sheep A. BURRIEL 139

Detection of enterocin AS-48-producing dairy enterococci by dot-blot and colony hybridization E. RODRÍGUEZ, M. I. MARTÍNEZ, M. MEDINA, P. E. HERNÁNDEZ and J. M. RODRÍGUEZ. 143

Characteristics of kefir prepared with different grain:milk ratios G. L. GARROTE, A. G. ABRAHAM and G. L. DE ANTONI 149

Review article

Body score of dairy cows W. H. BROSTER and V. J. BROSTER . . . 155

No. 2 (May 1998)

Sole disorders in conventionally managed and organic dairy herds using different housing systems M. VAARST, J. HINDHEDE and C. ENEVOLDSEN 175

Changes in electrical conductivity and somatic cell count between milk fractions from quarters subclinically infected with particular mastitis pathogens M. W. WOOLFORD, J. H. WILLIAMSON and H. V. HENDERSON 187

Characteristics of L-glutamine transport by lactating mammary tissue D. T. CALVERT, T.-G. KIM, J.-J. CHOUNG, C. BURNS and D. B. SHENNAN 199

Sequence analysis of *Camelus dromedarius* milk caseins S. KAPPELER, Z. FARAH and Z. PUHAN 209

Biochemical characterization of bovine α_{s1}-casein F and genotyping with sequence-specific primers E.-M. PRINZENBERG, P. ANGLADE, B. RIBADEAU-DUMAS and G. ERHARDT 223

Proteolytic specificity of chymosin on caprine α_{s1}-caseins A and F A. J. TRUJILLO, G. MIRANDA, D. LEBARS and A. DELACROIX-BUCHET 233

Identification of C-terminally truncated forms of β-lactoglobulin in whey from Romagnola cows' milk by two dimensional electrophoresis coupled to mass spectrometry F. ZAPPACOSTA, A. DI LUCCIA, L. LEDDA and F. ADDEO 243

Influence of thermal and other manufacturing stresses on retinol isomerization in milk and dairy products G. PANFILI, P. MANZI and L. PIZZOFERRATO 253

Mechanism and kinetics of inactivation at 40–70 °C of the extracellular proteinase from *Pseudomonas fluorescens* 22F E. P. SCHOKKER and M. A. J. S. VAN BOEKEL 261

Behaviour and enterotoxin production by *Staphylococcus aureus* during the manufacture and ripening of raw goats' milk lactic cheeses C. VERNOZY-ROZAND, A. MEYRAND, C. MAZUY, M.-L. DELIGNETTE-MULLER, G. JAUBERT, G. PERRIN, C. LAPEYRE and Y. RICHARD . . 273

Bovine lactoferrin induces both mucosal and systemic immune response in mice H. DEBBABI, M. DUBARRY, M. RAUTUREAU and D. TOMÉ . . 283

Effect of lactation stage on the cheesemaking properties of milk and the quality of Saint-Nectaire-type cheese J.-B. Coulon, I. Verdier, P. Pradel and M. Almena 295

Cheesemaking, compositional and functional characteristics of low-moisture part-skim Mozzarella cheese from bovine milks containing κ-casein AA, AB or BB genetic variants C. D. Walsh, T. P. Guinee, D. Harrington, R. Mehra, J. Murphy and R. J. Fitzgerald. 307

Grana Padano cheese aroma L. Moio and F. Addeo 317

Short communications

Effect of various milking machine systems and components on free fatty acid levels in milk B. O'Brien, E. O'Callaghan and P. Dillon . . . 335

Restriction fragment length polymorphisms at the ornithine decarboxylase locus associated with milk protein yield in Holsteins J. Yao, S. E. Aggrey, D. Zadworny, U. Kühnlein and J. F. Hayes . . 341

Effect of protein content on low temperature inactivation of the extracellular proteinase from *Pseudomonas fluorescens* 22F E. P. Schokker and M. A. J. S. Van Boekel 347–352

No. 3 (August 1998)

Milking performance and udder health of cows milked with two different liners M. D. Rasmussen, E. S. Frimer, L. Kaartinen and N. E. Jensen 353

Effect of decreased milking frequency of cows in late lactation on milk somatic cell count, polymorphoneuclear leucocyte numbers, composition and proteolytic activity A. L. Kelly, S. Reid, P. Joyce, W. J. Meaney and J. Foley. 365

Factors contributing to variation in the proportion of casein cows' milk true protein: a review of recent INRA experiments J.-B. Coulon, C. Hurtaud, B. Rémond and R. Vérité 375

Effects of white clover content in the diet on herbage intake, milk production and milk composition of New Zealand dairy cows housed indoors S. L. Harris, M. J. Auldist, D. A. Clark and E. B. L. Jansen . . 389

Seasonal and lactational influences on bovine milk composition in New Zealand M. J. Auldist, B. J. Walsh and N. A. Thompson . . . 401

Rumen-protected methionine or lysine supplementation of Comisana ewes' diets: effects on milk fatty acid composition A. Sevi, T. Rotunno, R. Di Caterina and A. Muscio 413

Insulin-independent glucose uptake in growth hormone treated dairy cows M. T. Rose, F. Itoh, M. Matsumoto, Y. Takahashi and Y. Obara . 423

Changes in the concentrations of glucagon-like peptide-1(7–36)amide and gastric inhibitory polypeptide during the lactation cycle in goats A. Faulkner and P. A. Martin 433

Microfiltration (0·1 μm) of milk: effect of protein size and charge O. Le Berre and G. Daufin 443

Effects of heat treatments and subsequent storage on the mineral balance of ewes' milk M. A. DE LA FUENTE, A. OLANO and M. JUÁREZ 457

Characterization of the interface of an oil-in-water emulsion stabilized by milk fat globule membrane material M. CORREDIG and D. G. DALGLEISH . 465

Assessment of isoflavonoid concentrations in Australian bovine milk samples R. A. KING, M. M. MANO and R. J. HEAD 479

Nutritional value of the non-protein N that accumulates during growth of proteinase-positive strains of *Lactococcus lactis* in milk for dairy lactococcal and leuconostoc isolates C. FOUCAUD, S. FURLAN, P. BELLENGIER, V. JUILLARD and J. RICHARD 491

In vivo nuclear magnetic resonance study of citrate metabolism in *Propionibacterium freudenreichii* subsp. *shermanii* C. DEBORDE, D. B. ROLIN, A. BONDON, J. D. DE CERTAINES and P. BOYAVAL 503

Short communications

Isolation of specific oligoclonal antibodies against bovine α_{s1}-casein by FPLC tandem immunoaffinity of the polyclonal antibodies L. MOIO, C. MARCHISANO and F. ADDEO 515

Distribution of plasminogen activator forms in different fractions of buffalo milk F. FANTUZ, A. BALDI, V. DELL'ORTO, F. POLIDORI, C. S. ROSSI, I. POLITIS and C. HEEGAARD 521

No. 4 (October 1998)

Metabolic and productive responses of dairy cows to increased ion supplementation at early lactation in warm weather N. SILANIKOVE, E. MALTZ, D. SHINDER, E. BOGIN, T. BASTHOLM, N. J. CHRISTENSEN and P. NORGGARRD 529

Kinetics of the renneting reaction followed by measurement of turbidity as a function of wavelength S. B. LOMHOLT, P. WORNING, L. OGENDAL, K. B. QVIST, D. B. HYSLOP and R. BAUER 545

Effect of interactions between denatured whey proteins and casein micelles on the formation and rheological properties of acid skim milk gels J. A. LUCEY, M. TAMEHANA, H. SINGH and P. A. MUNRO 555

Identification of a phosphopeptide in bovine α_{s1}-casein digest as a factor influencing proliferation and immunoglobulin production in lymphocyte cultures I. HATA, S. HIGASHIYAMA and H. OTANI 569

Formation of homocitrulline during heating of milk A. A. M. METWALLI, W. L. LAMMERS and M. A. J. S. VAN BOEKEL 579

Sterol oxidation in infant milk formulas and milk cereals P. ZUNIN, C. CALCAGNO and F. EVANGELISTI 591

Concentrated bovine colostral whey proteins from *Streptococcus mutans/Strep. sobrinus* immunized cows inhibit the adherence of *Strep. mutans* and promote the aggregation of mutans streptococci V. LOIMARANTA, A. CARLÉN, J. OLSSON, J. TENOVUO, E.-L. SYVÄOJA and H. KORHONEN 599

Autolysis of *Lactobacillus helveticus* and *Propionibacterium freudenreichii* in Swiss cheeses: first evidence by using species-specific lysis markers F. Valence, R. Richoux, A. Thierry, A. Palva and S. Lortal . . 609

Effect of the cysteine proteinase from *Micrococcus* sp. INIA 528 on the ripening process of Hispanico cheese A. F. Mohedano, J. Fernández, P. Gaya, M. Medina and M. Nuñez 621

Accelerated ripening of Pecorino Umbro cheese A. Corsetti, M. Gobbetti, E. Smacchi, M. De Angelis and J. Rossi 631

ELISA for differential quantitation of plasmin and plasminogen in cheese D. Dupont and R. Grappin 643

Effect of rennet concentration and method of coagulation on the texture of Feta cheeses made from ultrafiltered milk H. Wium and K. B. Qvist 653

Proteolysis and its role in relation to texture of Feta cheese made from ultrafiltered milk with different amounts of rennet H. Wium, K. R. Kristiansen and K. B. Qvist 665

Simple flow injection analysis system for determination of added sugars in dairy products E. Cortón and G. Locascio 675

Short communications

Modification of postmilking standing time by altering feed availability J. W. Tyler, B. J. Steevens, J. M. Holle, S. M. Croucher and K. L. Anderson 681

Pressure in the teat cistern and the mouth of the calf during suckling M. D. Rasmussen and M. Mayntz 685

Productive and reproductive performance in cattle infected with bovine leukosis virus J. L. D'Angelino, M. Garcia and E. H. Birgel . . 693

Comparison of immunomodulatory properties of purified lactoferrin, lactoperoxidase and β-casein in sheep C. W. Wong, D. L. Watson, G. O. Regester and G. W. Smithers 697
